

9th ZINC COLLEGE 2010

Optional Mine Tour – May 21, 2010

At an additional fee of US\$ 800 Zinc College participants will have the opportunity of visiting Teck's Highland Valley Copper Mine on Friday, May 21. It will be a one-day tour. Transportation will be by charter flight from Trail to Kamloops and a return to Vancouver.

Participation is limited to 34 persons. *Registrations will be handled on a first-come/first-serve basis.* Deadline for registration is April 30. Minimum participation is 12 persons.

The Highland Valley mine produces copper concentrates and is also a significant producer of molybdenum. It is an open-pit truck-and-shovel operation employing conventional drill and blast mining methods. The mill uses semi-autogenous grinding and conventional flotation to produce metal in concentrate from the ore.

The tour includes a visit of the pit, the reclamation site and the mill.

To register please contact jplembeve@zinc.org
